

TABLE DESIGN

➤ **Table name: tbl_student**

Primary key:Adm_no

Description: The table which stores the details of the student

Field	Datatype	Description
Adm_no	Int	Primary key
P_id	Int	Foreign key
S_name	Varchar	Name
Dob	Int	Date of birth
Gender	Varchar	Gender
Email	Varchar	Mail id of the student
Address	Varchar	Address of the student
Place	Varchar	place
Phone	Int	Phone number
Password	Varchar	Password
Class_id	Int	Foreign key

➤ **Table name: tbl_teacher**

Primary key: T_id

Description : The table which stores the details of the teacher

Field	Datatype	Description
T_id	Int	Primary key
T_name	Varchar	Name
T_dob	Int	Date of birth
Qualification	Varchar	Qualification of the teacher
Gender	Varchar	Gender
Address	Varchar	Address
Email	Varchar	Mail id of the student
Place	Varchar	Place
Phone	Int	Phone number
Password	Varchar	Password

➤ **Table name: tbl_parent**

Primary Key: P_id

Description : The table which stores the details of the Parent

Field	Datatype	Description
P_id	Int	Primary key
P_name	Varchar	Name
Address	Varchar	Address
Designation	Varchar	Designation
Phone number	Varchar	Phone number
Password	Varchar	Password
Adm_no	Int	Foreign key

➤ **Table name :tbl_course**

Primary key:Course id

Description : The table which stores the details of the Course

Field	Datatype	Description
Course_id	Int	Primary key
Course_name	Varchar	Course name

➤ **Table name: tbl_attendance**

Primary key: Att_id

Description : The table which stores the details of the Attendance

Field	Datatype	Description
Att_id	int	Primary key
Adm_no	int	Foreign key
Class_id	int	Foreign key
Course_id	int	Foreign key
Sub_id	int	Foreign key
Attendance	varchar	Attendance
Hour	time	Hour of the class
T_id	int	Foreign key

➤ **Table_name:tbl_subject**

Primary key:Sub_id

Description : The table which stores the details of the Subject

Field	Datatype	Description
Sub_id	Int	Primary key
Class_id	Int	Foreign key
Sub_name	Varchar	Subject name
T_id	Int	Foreign key
Course_id	Int	Foreign key

➤ **Table name: tbl_class**

Primary key: class_id

Description : The table which stores the details of the Class

Field	Datatype	Description
Class_id	Int	Primary key
Class_name	Varchar	Class
Course_id	Int	Foreign key
